New Perspectives on Bullying

By Helen Cowie & Dawn Jennifer

This book provides a valuable resource for anyone responsible for the emotional health and well-being of children and young people. The authors focus on the importance of fostering positive relationships in the school community as a whole, so that young people and adults feel empowered to challenge bullying when they encounter it and protect those involved.

Using case studies of real experiences, innovative practice, key research findings and perspectives from children and young people themselves, the authors provide perceptive insights into the positive ways of relating to others that are essential if we are to address the issue of bullying successfully.

The material outlined in the book is directly linked to the new agenda for change in meeting the needs of the child, empowering children to be consulted and to take responsibility for issues that affect them. It explores a range of effective interventions that can counteract bullying - including restorative approaches; peer mediation; narrative approaches; and cyber support.

Restoring the Balance 2

Changing culture through restorative approaches: the experience of Lewisham Schools after several years of implementing the approach in primary and secondary schools.

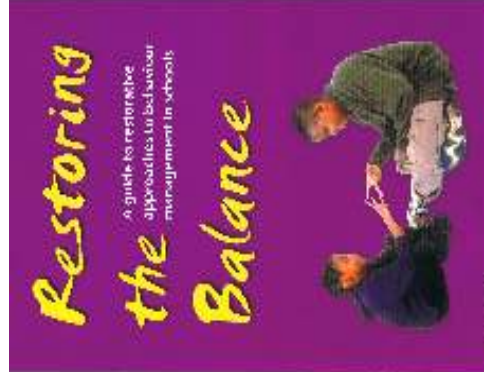

RRP // £15.00

Restoring the Balance 1

Lewisham is a leading authority in the way it is introducing restorative approaches into its schools. This first book sets the scene.

RRP // £10.00

The Peer Mediation and Mentoring Trainer's Manual

by Belinda Hopkins

A unique guide showing how to train young people in the restorative approach of mediation and the associated skill of peer mentoring. This essential manual takes trainers from the first steps in trying to bring the whole school community on board to identifying those young people most suited to be mediators and mentors, training them in the required skills and then working with them to set up and run a peer mediation and/or peer mentoring service.

The content covers:

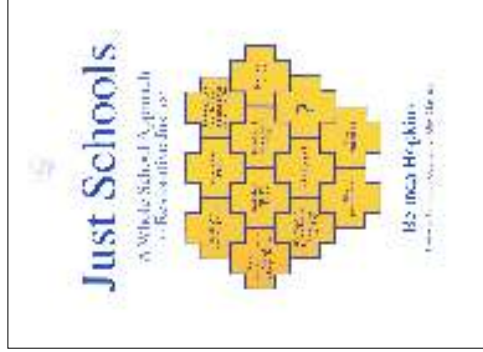

- Generating support
- Planning and outreach
- A 5-day training programme for peer mediators (incorporating three days of peer mentoring training)
- Games
- Developing mediation and mentoring skills
- Planning the service
- Monitoring and evaluation strategies

Also includes a Peer Mediators' Handbook and Peer Mentors' Handbook that can be photocopied or printed out from the accompanying FREE CD Rom (which also contains other material from the book).

RRP // £65.00

Just Schools

by Belinda Hopkins

This was the first book ever written about restorative justice in school. It is regarded by many as the 'bible' in the field.

In this practical handbook, Belinda presents a whole school approach to repairing harm using peer mediation, healing circles and Conference circles. Provides clear, practical guidance for group sessions and examines issues and ideas relating to practical skill development for facilitators.

Contents include:

- Background and wider context of Restorative Justice
- What has Restorative Justice got to do with schools
- Where to start
- Repairing harm done to relationships and the community - what community?
- Active listening
- Mentoring harm
- Dealing with challenging situations one-to-one
- Mediation
- Partnership

An excellent resource for those seeking a more positive and effective way of dealing with conflict in educational settings.

Restorative Solutions - Making it work

By Helen Mahaffey and Colin Newton

'This book is a welcome addition to the growing and developing literature about using restorative approaches in educational settings. The authors have a huge amount of experience between them of working in such settings and the book is full of illuminating case studies from their own practice.

What I found particularly valuable in the book is the way the authors have enriched our understanding of interpersonal dynamics of restorative interactions by drawing on theories from their own disciplines of educational psychology and family therapy.

This is especially welcome as we begin to carve out a whole new way of looking at what it means to be restorative in school settings, and move on from the narrow focus of 'original criminal justice model'

Time to Talk - Time to Listen Restorative Approaches in Barnet primary schools

"Time to talk - Time to Listen" is a short film highlighting the restorative approaches currently going on in five Barnet primary schools. It is an innovative project, which aims to resolve issues of conflict and victimisation affecting pupils' lives at school. This film will become a catalyst for future development in Barnet schools.

Just Care

**Restorative Justice Approaches to Working with
Children in Public Care**
by Belinda Hopkins

Restorative Justice is an innovative approach to addressing conflict and bullying, as well as disruptive, challenging and criminal behaviour. A restorative approach in a care setting shifts the emphasis from managing and responding to anti-social behaviour to the building, nurturing and repairing of relationships, and encourages the young person to accept responsibility and put things right.

In this photocopiable resource, Belinda Hopkins identifies the practical benefits of employing the restorative approach. In extreme cases, this can mean dealing with serious incidents effectively without recourse to the police and the criminal justice system. For day-to-day interactions the approach builds on the principles of social pedagogy and restorative parenting', and offers a fresh look at encouraging self-regulation through the promotion of pro-social behaviour and greater involvement of the young people themselves in making choices that address everyone's needs.

Just Care is essential reading for residential care managers and staff, social workers, youth offending team managers and those with responsibility for foster care training and development.
